### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Malpede on 9/5/06.

The application has been amended as follows:

Claim 32. (Currently Amended) A (storage) computer readable medium storing a program for executing a process of outputting an image of an object, picked up by a camera unit and stored together with information of direction of the camera unit, from an image reproducing apparatus to a display device, the program executing the processes of:

storing images of a plurality of objects, together with information of direction of the camera unit in a storage device, wherein the direction is determined on the basis of the position relation between the image reproducing apparatus and the camera unit, and includes a first direction and a second direction, and the object to be picked up in the first direction and the object to be picked up in the second direction are different from each other;

reproducing a plurality of images picked up by the camera unit in the storage device, to output the plurality of images to the display device; and

controlling reproduction so as to reproduce a group of images picked up by the camera unit, wherein directions of the group of images are the same as one of the first direction and the second direction, among the plurality of images stored in the storage device, in accordance with the information of direction of the camera unit.

Claim 33. (Currently Amended) A (storage) computer readable medium according to claim 32, further comprising a detecting process of detecting a direction of the camera and generating the information of direction of the camera.

Claim 34. (Currently Amended) A (storage) computer readable medium according to claim 32, wherein the information of direction of the camera, which is to be stored in the storage device together with the plurality of images, is information as to a direction where the camera is directed when the respective images to be stored in the storage device are picked up.

### ***Reasons for Allowance***

1. Claims 26-34 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach storing images of a plurality of objects, together with information of direction of the camera unit, wherein the direction is determined on the basis of the positional relation between the image reproducing apparatus and the camera unit, and includes a first direction and a second direction, and the object to be picked up in the first direction and the object to be picked up in the second direction are different from each other; a reproducing device to reproduce a plurality of images picked up by the camera unit on to output the plurality of images to the display device; and a
